

Announcing **'Block Building Competition'**

Grade One

Academic Year 2017/ 2018

20th September 2017, Wednesday

Dear Parents,

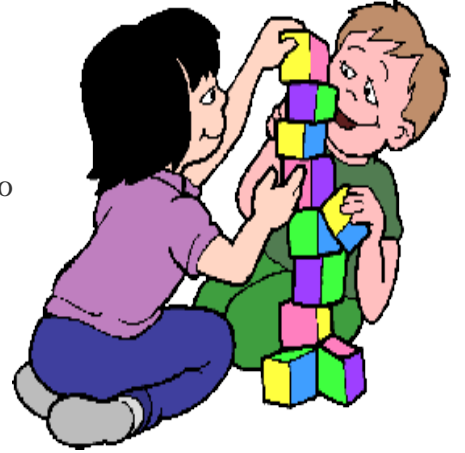

The Maths Department is excited to announce the **'Block Building Competition'**, so here we are calling all the master builders to show off their talent in creating something amazing.

This encourages them to use their imagination to create a structure.

Building with blocks provides one of the most valuable learning experiences available for young children. .

Building Blocks provide children with the opportunity to exercise a variety of skills that will help them later in life. Block play stimulates learning in all domains of development, intellectual, physical, and social-emotional and language .They also encourage problem solving, symbolic thinking, and math concepts.

The **'The Block Building Competition'** will be conducted on Wednesday, 4th October 2017.

The detail of the 'Block Building Competition' are as follows:

1. Students should bring their own building blocks and construct/ build a model/design during the Maths period on **4th October 2017.**
2. 50 minutes will be provided to our students to create their master piece.
3. Only three winners will be chosen from each class.
4. Certificates and prizes will be awarded to the winners.

So dear parents do encourage your child to participate to experience the fun while learning.

Organized by Grade One Maths Department
