

Announcement

'Speed Master Contest'

Department of Mathematics

Grade 2

Academic Year 2017/2018

It is our pleasure to announce the Speed Master Contest for grade 2.

The importance of accuracy in math is evident, but the importance of speed in math is rarely emphasized.

The purpose of this contest is to develop the cognitive skills and to measure the individual's speed and accuracy.

The students should practice simple addition and subtraction skills for the contest.

The first round will be held on 17th October 2017 during Maths period.

The winners will be notified and they will move on to the Second /Final Round that will be held in the month of November 2017.
