

Announcing THE STARS OF SCIENCE

A Great Learning Experience!!!

The Department of Science is glad to announce **THE STARS OF SCIENCE** – the science fair where the students of **grade 2 and 3** will exhibit their projects and models and show their awareness in different fields of science. The program will be held on **Wednesday 14th February 2018.**

The aim of the program is to encourage our students to acquire basic knowledge of science and to develop a scientific way of learning.

This program will give students opportunity to learn the process of scientific investigations and at the same time will contribute to the social development of our students.

The projects that will be exhibited are already **assigned to the selected participants**

SOMEWHERE

SOMETHING

INCREDIBLE

is waiting to be known!!!
